THE MONEY MARKET

DECREASE IN BANKING RESERVE REGARDED AS FAVORABLE.

Trading on 'Change Dull During the Past Week-Local Markets Make a Good Showing for July.

At New York, Saturday, money on call

was nominally 1@11/2 per cent. Prime mercantile paper, 21/2@3 per cent. Sterling exchange was firm, with actual siness in bankers' bills at \$4.89% @4.90 for emand and at \$4.88% @4.89 for sixty days;

posted rates, \$4.89@4.89% and \$4.90@4.90%; commercial bills, \$4.87% 64.88. Silver certificates, sales, \$10,000, at 67%c; bar silver, 67c; Mexican dollars, 531/2c. Bar silver at London was 30%d per ounce.

The weekly bank statement shows the following changes: Reserve, decrease......\$2,052,223

The banks now hold \$32,173,700 in excess

of the requirements of the twenty-five-percent, rule. The New York Financier, in its forthcoming issue, will say: The statement of the associated banks of this city for the week ending July 6, 1895, does not show many important changes. The decrease of \$2,-052,225 in the reserve is a favorable symptual condition of the banks at the close of the week, would balance with the other. The very decreases noted were results of July payments of dividends, but it is reasonable to suppose that a great deal of this money has since been returned to the banks, together with government disburse
ments, making the deposit item larger than the pears may be expected to do their best, for the early future, to test the market at what they conceive to be its weak points, as much perhaps from a mere spirit of fight as from any strong hope of making a distinct impression on prices. The exports of specie from the port of New York for the week amounts to \$136,300 in gold and \$363,355 in silver. The imports are: Gold, \$123,990; silver, \$66,754; dry goods, \$2,283,453; general merchandise, \$5,239,284. Chicago Gas was the weak spot in Sat-urday's stock market. Advices from Chi-cago were to the effect that, while Presi-dent Lincoln had not yet sent in his resig-nation, it was very probable that he would do so, as Colonel Payne, at whose request he became the chief executive officer of the trust, had some time since sold out his stock in the company. Reports from the same source stated that other Chicago di-rectors would resign and that the Attorneyrectors would resign and that the Attorney-general would be allowed to push his suits against the trust to the end that the company's affairs be put on a new basis. The pears took the initiative at the opening of pusiness and forced the stock down % percent., but on brisk covering an advance of per cent. was quickly made. At the higher figures the attack was renewed and a sharp decline of 2 per cent. followed. Toward the close a covering movement Toward the close a covering movement caused a rally of % per cent., restricting the loss on the day to % per cent. The general list opened moderately active and in the main higher, and an advance set in ranging up to 2 per cent. New England leading the railroads group, and the Tobacco shares the industrials. the main higher than at the close yesterday. The gains are fractional, except that Sugar shows an improvement of 1 per cent.; New England, 1½; American Cable, 1¾, and Tobacco preferred, 2 per cent.

The trading during the week was dull and the market unsettled, having been largely in the hands of the professional operators. At the outset the traders ranged on the short side and inaugurated a movement against the industrials' shares, which resulted in a heavy break in these stocks. The advance in prices of grades of sugar induced the formation of a bull pool in Sugar stock which moved the price up, making a net gain of 5% per cent. Chicago Gas received support at the low figures on the reassuring utterances of the management as to the ultimate outlook of the dividend question and a raily was made of 5½ per cent. Taik of President Lincoln's retirement and other unfavorable coln's retirement and other unfavorable rumors again rendered the stock vulnerable to the bear attack and the appreciation was lost. The final sale records a loss of per cent. on the week. The railway list in the earlier operations ruled lower in sympathy with the drive against indussympathy with the drive against industrials, and although the granger group at one time was a target for the bears and yielded under their efforts, the list generally closed higher on the week. The sustaining factors in the late speculation were the receipt of favorable traffic returns, cheering crop advices, London buying and improved business outlook which caused heavy covering by the shorts. The transactions of the week aggregate 1,076,-700 shares and 133 stocks figured in the dealings. The principal changes in prices

Saturday's bond market was dull, sales being only \$853,000, and the tone of the trading was a shade easier. Pennsylvania four-and-a-haifs declined 1½ per cent., and Consumers' Gas of Chicago firsts and Northern Pacific consol fives, trust receipts, 1½ per cent. Buffalo, Rochester & Pittsburg fives gained 1 per cent.

The bond speculation of the week was active, but devoid of special features. The sales were \$6,993,000, and 234 bonds were dealt in. The principal changes over the previous Saturday were: Declines—Consumers' Gas of Chicago firsts, 3½ per cent.; Pennsylvania four-and-a-halfs, 3½; Northern Pacific consol fives, 3½, and Northern Pacific trust receipts, 4½ per cent. Henry Clews, of New York, in his review of operations in Wall street last week, The stock market has entered upon a distinctly new stage; new not so far as respects the main underlying conditions—in which there is no change—but in respect to the current speculative attitude and tactics of

operators. The triumphant "bull' campaign of the last three months has brought about a new situation. Prices have risen to a pitch that surprises even the most san-guine, and "bulf" operators have made ex-traordinary profits. Among conservative speculators there is a feeling that prices are now, as a rule, up to what the immediate facts of the situation warrant. It is conceded that the general drift of the conditions that control values suggests the expectation of a further advance when the harvest has been gathered and its beneficial after-effects upon trade begin to appear. But between now and then there is an interval of some weeks, during which pos-sibly no influential developments may be forthcoming. As a matter of speculative tactics it appears desirable, to professional speculators, that this interval might well be used for the purpose of realizing profits on the strong rallies and thereby laying

It is not to be supposed that the "bears" will allow this opportunity to pass unimproved. A long experience of conditions adverse to their side has made them impatient for an opportunity for attack, and it is not likely they will permit the present partial lull in "bull" activity to go unappropriated for their benefit. We do not undertake to say how far they will venture in making reprisals on the reposing "bulls" nor how far the "bulls" are likely tom, but it is to be doubted whether the reduction in that item, if figured on the actual condition of the banks at the class of that the optimists will not be found willing to part with any considerable amount stock at much lower prices. Nevertheless the bears may be expected to do their best,

But while immediate conditions seem to but the banks report a demand for discounts from Southern banks, and from other sections, which, under present circumstances, is a most gratifying sign.

That market perceives that New York is now capable of taking care of itself and the foreign markets at the same time. It sees that a great confidence has taken hold upon our people; that power com-mands the confidence of London, and Europe may therefore be expected to follow the drift of our home market rather than antagonize it so long as it tends to increase.

FALL RIVER, July 6.—The print-cloth market has materially strengthened during the week, advancing from 2 13-16c, first by the addition of 1 per cent., and then to 2%c, due to a strengthening demand, which the manufacturers declined to meet at current prices. Now, at 2%c, the market is firm, and manufacturers generally decline to meet the good demand for both spots and futures. Owing to the celebration of the liday the production was cut down below

in the stock. The production for the week was 180,000 pieces; deliveries, 192,000; stock, NEW YORK, July 6.—There was a light to nominal demand for any class of goods. New business was of very limited proportions, and was the result of orders from traveling salesmen. In the forwarding of goods on old orders large sales were realized, which class of business will be of daily completion because of the production. Printing cloth market strong at 2%c bid.

the deliveries, resulting in a small decrease
